AGENDA ITEM 1—CALL TO ORDER

The Tennessee Tech Board of Trustees Audit & Business Committee met on December 6 2018, in Roaden University Center Room 282. Trustee Teresa Vanhooser called the meeting to order at 8:03 a.m.

Trustee Vanhooser asked Ms. Kae Carpenter, Secretary, to call the roll. The following members were present:

- Teresa Vanhooser
- Rhedona Rose
- Purna Saggurti participated by phone and confirmed that he could simultaneously hear and speak to the Committee members, that he was the only person present in the location from which he was calling, and that he received the Board materials in advance of the meeting.

Other board members and members of the public were also in attendance.

AGENDA ITEM 2—Approval of Minutes of September 18, 2018

Trustee Vanhooser asked for approval of the minutes of the September 18, 2018 Audit & Business Committee meeting. Trustee Vanhooser asked if there were questions or comments regarding the minutes. There being none, Trustee Rose moved to recommend approval of the September 18, 2018 Audit & Business Committee minutes. Trustee Saggurti seconded the motion. The motion carried unanimously.

AGENDA ITEM 3A- Approval of Tuition Transparency Act Report

Dr. Stinson stated that during the legislative session last year a statute was passed that required actions on the part of Tennessee Tech University and Board of Trustees. The four elements of the act included: (1) by January 1 2019 develop a list of factors the Board must consider when setting tuition and fee levels, (2) each year by February 1 the board shall provide a report to the general assembly containing information regarding expenditures of revenues derived from any tuition and fees increase in the previous full academic year, (3) June of each year a 15 day public notice prior to the board meeting and provide a comment period for tuition and fee recommendations and (4) by August 1 2019 non-binding predictive cost estimates method for undergraduate degree programs to be included in acceptance letters to the students.

The two items that required action by the Audit & Business Committee and the Board was the report to the general assembly on how the revenues were used and list of factors that shall be considered when developing recommendations increasing tuition and mandatory fees. The report to the general assembly referred to the 2.66 percent tuition increase approved by the Board in June 2018 and was included in the proposed Budget that was also approved by the Board. A draft copy of the report was provided in the Diligent Book.

Trustee Vanhooser asked for a motion to place the Tuition Transparency Act Report on the Board's regular agenda. Trustee Rose moved to recommend. Trustee Saggurti seconded the motion. Ms. Carpenter took a roll call vote. The motion carried unanimously.

AGENDA ITEM 3B—Approval of Tuition Transparency Act Factors

Dr. Stinson stated the second item from the statute that required action by the Board was by January 1, 2019 to develop a list of factors to consider when recommending tuition and fee increases. The mandatory factors must include at a minimum the level of state support, total cost of attendance and efforts to mitigate the financial effect on students.

The proposed additional factors to take into consideration were THEC mandatory tuition and fee range, comparison to peer institutions, competitor institutions and other LGIs and Higher Education Price Index. These factors required committee approval to send to the Board.

Chair Jones stated that other factors outside of the mandatory and proposed additional factors could be considered but just would not be required.

Trustee Harper asked if Dr. Stinson had any indication what factors the other LGIs were considering. Dr. Stinson stated the LGI chief business officers had conversations regarding potential proposed factors and they are in line with what is being proposed. Trustee Harper stated she would like to see what other LGIs file and if any best practices could be picked up.

Chair Vanhooser asked for a motion to place the Tuition Transparency Act Factors on the Board's regular agenda. Trustee Rose moved to recommend. Trustee Saggurti seconded the motion. Ms. Carpenter took a roll call vote. The motion carried unanimously.

AGENDA ITEM 4A— Approval of 2018-19 October Revised Budget/Organizational Chart

Dr. Stinson stated information on the budget was provided in the Diligent book. The October budget had been prepared, reconciled and some one-time reserves were used to provide the two percent fund balance. Dr. Stinson provided the following information in regards to E & G Revenue reconciliation of difference:

Actual vs Proposed:

- Tuition and Fees
 - Estimated decline in tuition revenues based on anticipated enrollments \$(2,361,359)
 - Estimated tuition increase of 2.66% \$1,982,700
- State Appropriations
 - formula adjustment \$1,790,800
 - 2.5% salary \$1,281,500
 - \$500,000 recurring for Carnegie class change
 - Remove \$(500,000) restricted match
- Other
 - Interest income \$986,503
 - IDC, athletics, child care center, Misc. \$682,469

Proposed vs Revised:

- Tuition and Fees
 - Loss of \$2 million from out-of-state enrollment decline
 - Loss of \$306,550 in SACF from enrollment decline
- State Appropriations
 - Addition of \$3,000,000 recurring state appropriation designated for Engineering
 - \$700,000 recurring state appropriation for Carnegie class change
 - Adjustments for OPEB, TCRS, Risk Management, Health Ins. \$(537,700)
- Other
 - Interest income \$400,000

Trustee Geist asked if the \$700,000 Carnegie funds were restricted. Dr. Stinson advised there was no designation and the university decides how those funds will be used. However, the \$3,000,000 has been designated for Engineering.

Dr. Stinson provided information below in regards to reconciliation of change in expenses:

Actual vs Proposed:

- FY 2017-18 Unspent budgets requested to carryforward \$4,872,328
- Scholarships Unspent \$2,092,745
 - Unspent general scholarship \$1,968,310
 - Unspent athletic scholarship \$633,670
 - Over spent mandated scholarships \$(380,282)
- Budgeted 2.5% salary plus benefits \$(2,216,354)
- Budgeted other costs \$(1,119,991)

Proposed vs Revised:

- Re-budget of carryforward amounts \$3,979,193
 - SACF \$909,980
 - Indirect Cost \$533,746

- SAF \$455,380
- TAF \$1,125,458
- Faculty research and match \$181,997
- Small renovation projects \$307,872
- Other department requests \$338,958
- Budget reductions \$(1,959,556)
- Budget \$3,000,000 engineering enhancement funds
- Investment into new programs \$318,000

Trustee Rose asked if the unspent scholarship dollars were average, high or low. Dr. Stinson advised that it was high and over the last few years Tennessee Tech University had offered scholarships at a significant rate and found they were not being accepted. Those scholarship dollars have been brought down. In the revised budget \$900,000 was taken out between University Academic Scholarship and International scholarships.

Trustee Geist asked for clarification on the carry forward amounts and the source of the \$3,900,000 specifically if it came from academic units or lapsed salaries. Dr. Stinson stated the majority of that amount was composed from specialized academic course fees, student access fees and technology access fees. Other department requests that were approved were fee related or an obligation had already been made, such as a purchase order or carry forward from startup package. The balance of what was not approved were lapsed salaries with no specific usage other than simply requested to carry forward. Trustee Geist wanted to know where funds went that were re-budgeted. Dr. Stinson advised that the specialized academic course fee went back to the colleges, specifically Engineering had a big piece. The Technology Access Fee was re-budgeted back into their accounts. Indirect costs was re-budgeted back to colleges, research, PI's and departments. Where the funds were generated last year it was carried forward into those specific units this year. Dr. Stinson stated there were requests for general dollars, they were looked at to see if a specific obligation had already been made. Most were requested to just carry forward in case the department needed them in the future. To re-budget general dollars really impacts the dollars available for fund balance.

Trustee Jones wanted to know what the unpredictable factors included while working on a budget other than enrollment. Dr. Stinson advised from proposed budget to revised budget, enrollment is the major factor. International students typically register only days before the semester starts as that is when they arrive to campus and obtaining their visa can effect as well. Another factor was projecting TN eCampus revenues. TN eCampus revenues are based on whether Tennessee Tech provides the instruction. Tennessee Board of Regents does not provide the reconciliation until well past the middle of a semester and until that data is received from TBR we do not know what revenue has been earned or lost.

Dr. Stinson advised the consolidated financial indicator gave an overview of the financial health of Tennessee Tech University. The expected level was standard nationwide at or above 3 percent. If a university is at or above three percent, that indicated funds were available to reinvest. If a university is around one percent, then significant financial problems exist. Tennessee Tech has been on a downward trend. The Five-Year Strategic Financial Plan Committee is working on the trend to go up. Dr. Stinson provided CFI comparisons to other LGIs and UT. Tennessee Tech's raw number is better, however the trend is not.

Trustee Vanhooser asked for a motion to place the 2018-19 October Revised Budget/Organizational Chart on the Board's regular agenda. Trustee Rose moved to recommend. Trustee Saggurti seconded the motion. Ms. Carpenter took a roll call vote. The motion carried unanimously.

AGENDA ITEM 4B—Five-Year Strategic Financial Plan Update

Dr. Stinson advised this was an informational update on the Five-Year Strategic Financial Plan Committee's progress. Revenue assumptions had been updated on the base model and optimistic model to include increase in freshman, decrease in transfers students, tuition increase and ratio of in-state to out-of-state students. The difference between the two models was the base model assumed two percent increase in both freshmen and transfer enrollment in subsequent years and the optimistic model assumed four percent. Current projections indicated on the base model in FY2022-23 \$1,974,030 would still be needed to cover the deficit and establish four percent fund and the optimistic model projected \$1,304,635 more than needed. The four percent fund is composed of two percent fund balance and two percent investment fund.

Revenue uncertainties included: potential continued decline in international students, decline in TN eCampus, transfer student enrollments had not increased as expected, Tennessee high school graduates were flat, scholarship competition and state appropriations.

Dr. Stinson advised unrestricted expenditures per student credit hour in FY2015 was \$489 and increased to \$574 in FY2018, which equated to a 17 percent increase in expenses. The unrestricted expenditures per SCH by functional categories were instruction, administrative and student services. The increase from FY2015 to FY2018 was about 15.9 percent increase in cost of instruction, 15.2 percent increase in administrative costs and 16.1 percent increase in student services. Dr. Stinson provided information on the expenditures per student credit hour by college. College of Interdisciplinary studies had several other components not just instruction and therefore had the highest per SCH cost by college. The College of Arts and Science had always had the lowest cost per SCH and had been able to help cover the costs for some higher cost programs. More students have been attending community colleges for general education and more students are beginning with general education credits from dual enrollment which has caused the Arts & Sciences SCH to increase and will become unsustainable.

Dr. Stinson advised the Five-Year Strategic Financial Plan Committee looked at controlling expenses in operations, administrative and academics. From the operations stand point factors that have been considered were reallocating lapsed salaries to the investment pool, creating utility savings, consolidating purchase of computers, reviewing the cell phone policy and provide stipend rather than phone, review credit card discount rate, standardize office supplies and centralize awarding of university funded scholarships. In regards to controlling administrative expenses factors considered included centralized versus de-centralized administrative functions, reviewing variable costs associated with professional contracts, software contracts and temporary positions. Factors to control expenses related to academics included: realigning colleges' budget with the budget model based on SCHs and establishing a contribution margin for each college, class schedules and class size, faculty work load and compensation, financial feasibility of new programs, course delivery methods and effective scheduling of large classrooms.

Dr. Stinson advised per THEC recommendations for FY2019-2020 Tennessee Tech University was the best performing out of all the LGIs which resulted in 7.6 percent additional funding, \$814,300

adjustment in outcomes formula and \$3,031,900 share of new funding. THEC's 2019-20 recommendation included year three of the Carnegie classification change of \$900,000. THEC's recommendation for the binding range for tuition and mandatory fee range is 0-2.5 percent, but will not be set until May. THEC recommended \$7,710,000 for capital maintenance projects. The proposal for the new Engineering building was fourth on the capital outlay list. Trustee Geist wanted clarification on how much the Carnegie classification going forward would be each year. President Oldham advised \$2.1 million recurring.

AGENDA ITEM 5—Disclosed Capital Project

Dr. Stinson stated that once a quarter proposals for disclosed projects could be submitted to the State Building Commission. The proposed item is a sprinkler system for the bottom floor of the Roaden University Center.

Trustee Vanhooser asked for a motion to place the Disclosed Capital Project on the Board's regular agenda. Trustee Rose moved to recommend. Trustee Saggurti seconded the motion. Ms. Carpenter took a roll call vote. The motion carried unanimously.

AGENDA ITEM 6—Report of Audit Activity

Trustee Vanhooser asked Deanna Metts to present. Ms. Metts advised that the report was provided in the Diligent Book. The report covered the period of July 2017 thru November 2018 and was composed of four categories: audits, reviews, investigations and other activities. The review was provided by law and was an informational only item.

AGENDA ITEM 7—Approval of 2019 Audit Plan

Deanna Metts requested approval of the 2019 Audit Plan. The Audit Plan was provided in Diligent Book. The plan lists each significant activity Internal Audit plans to do by type of activity and the functional area it concerns. Departmental audits are based on a model that looks at six points: prior audit results, internal controls, changes within unit, size of unit regarded to revenue, government regulation and managements concerns.

Trustee Vanhooser advised this approval was only needed by the Audit & Business Committee and asked for a motion. Trustee Rose moved to recommend. Trustee Saggurti seconded the motion. Ms. Carpenter took a roll call vote. The motion carried unanimously.

AGENDA ITEM 8 —Adjournment of Open Session & Call to Order of Executive Closed Session

PURPOSE & KEY POINTS:

Tennessee Tech has been designated a beneficiary of the Dennis Trust. The Dennis Trust was established by B.J. Dennis and Cleo N. Dennis on September 9, 1993 with an amendment dated December 4, 2008. The terms of the Trust Agreement provide for dividing the net trust estate into fifteen (15) equal shares to be distributed as directed by B.J. Dennis and Cleo N. Dennis upon the death of the survivor. The gift to Tennessee Tech consists of seven (7) shares of the Dennis Trust valued at \$1,200,000. According to the terms of the Agreement, the funds are to be used to establish an annual scholarship fund to be known as the "B.J. and Cleo Nash Dennis Scholarship Fund." The University has received \$933,333.33 to-date. The balance will be forwarded to the University upon final settlement of the estate.

The Tennessee Tech University Foundation was established as the fundraising arm of the University and it is the practice of the University to route all gifts through the Foundation; however, the Dennis Trust specifically names the University as the recipient of the funds. We are requesting the Board to designate the Dennis Trust gift as a quasi-endowment and transfer the gift to the Foundation for investment purposes only. The University will retain ownership of the funds. Tennessee Tech's Policy 521, Deposit and Investment of Funds, allows for an endowment from private gifts to be invested in equity securities that are prudently diversified. The Foundation's investment strategy through Common Fund meets the requirements of this policy.

PRESENTERS: Dr. Claire Stinson, Vice President for Planning and Finance

PURPOSE & KEY POINTS:

Over time costs associated with accepting credit card payments for tuition and other fees have increased to approximately \$500,000 annually. This cost is passed on to all students through tuition increases although the majority of students are not using this form of payment. Effective July 1, 2019, we will charge a processing fee of 2.85% on credit card payments. Our on-line payment system will warn students of the additional charge for paying by credit card and offer them other methods for making payments on-line including e-check and ACH. Students may also pay in-person using paper check or cash. Several Tennessee universities have already implemented a similar credit card processing fee including UTK, UTC, ETSU, University of Memphis and Vanderbilt University.

PayPath Notes of Interest

- Implementation cost is a one-time fee of \$8,750.
- Optional ACH validation at an estimated annual cost of \$16,000.
- Annual decrease in expenses for Tennessee Tech should be \$400,000 to \$500,000.
- Anticipate a flip in volume regarding credit card payments and ACH payments based on experiences from other schools who have implemented PayPath.
- Students have other **free options** to pay online including ACH and bank wire.
- Discourages the use of credit cards (immediate interest, higher interest, etc. vs. student loans) as a long term debt instrument.

The rule is not anticipated to have an impact on small business.

Impact on Local Governments

Pursuant to T.C.A. §§ 4-5-220 and 4-5-228 “any rule proposed to be promulgated shall state in a simple declarative sentence, without additional comments on the merits of the policy of the rules or regulation, whether the rule or regulation may have a projected impact on local governments.” (See Public Chapter Number 1070 (<http://publications.tnsosfiles.com/acts/106/pub/pc1070.pdf>) of the 2010 Session of the General Assembly)

Agenda Item: Non-Mandatory on-line Fee for consideration at June Committee meeting

PRESENTERS: Dr. Claire Stinson, Vice President for Planning and Finance

PURPOSE & KEY POINTS:

On-line course fees

Several non-mandatory fees for on-line courses and programs have been proposed by various Colleges. After extensive discussions, we are not prepared to bring these forward at this time. We are working to develop a more comprehensive plan for on-line course and program offerings that will include a consistent fee structure for on-line offerings across campus. With this in mind, there is potential to bring a non-mandatory fee proposal related to on-line course and program offerings forward at the June 2019 committee meeting.

Data Dashboard Project

Summary

Utilizing existing university metrics, this project will create a single place to find key metrics for eight categories:

- *Student Success*
- *Financial*
- *Enrollment*
- *Athletics*
- *Sponsored Research*
- *Advancement*
- *Faculty*
- *Complete College Act Funding Formula*

Attachments

- *Design draft of dashboard homepage*
- *Inventory of proposed data points collected in this dashboard*

This is not a replacement of various Institutional Research reports, but a clearinghouse for data culled from those reports, along with metrics maintained by other university offices, such as the Business Office, University Advancement, Athletics and the Office of Research.

How it works

A single web-based dashboard will display the key metric for a category. By clicking on the key metric, users will find the other metrics in this category. (For categories that do not have a single key metric, their display will link to a page with the metrics for the category.)
