

tecta The TECTA Career Lattice

TENNESSEE EARLY CHILDHOOD TRAINING ALLIANCE

TECTA believes professional development through higher education should be an essential component of your career growth. Just like with any goal, we encourage you to develop a personalized education pathway based on your career plans, while also keeping your life in perspective.

The TECTA Career Lattice is our planning guide to help you create your personalized education pathway. Unlike a career “ladder” that describes a specific path for career advancement, a lattice represents flexible pathways for education and development in multiple directions and areas, representing the many different types of jobs available as you move vertically, horizontally, and laterally through a career in early childhood education.

Contact your local TECTA site for more information about how to get started. TECTA staff are available to discuss the training, education, and professional development opportunities that will help you accomplish your career goals.

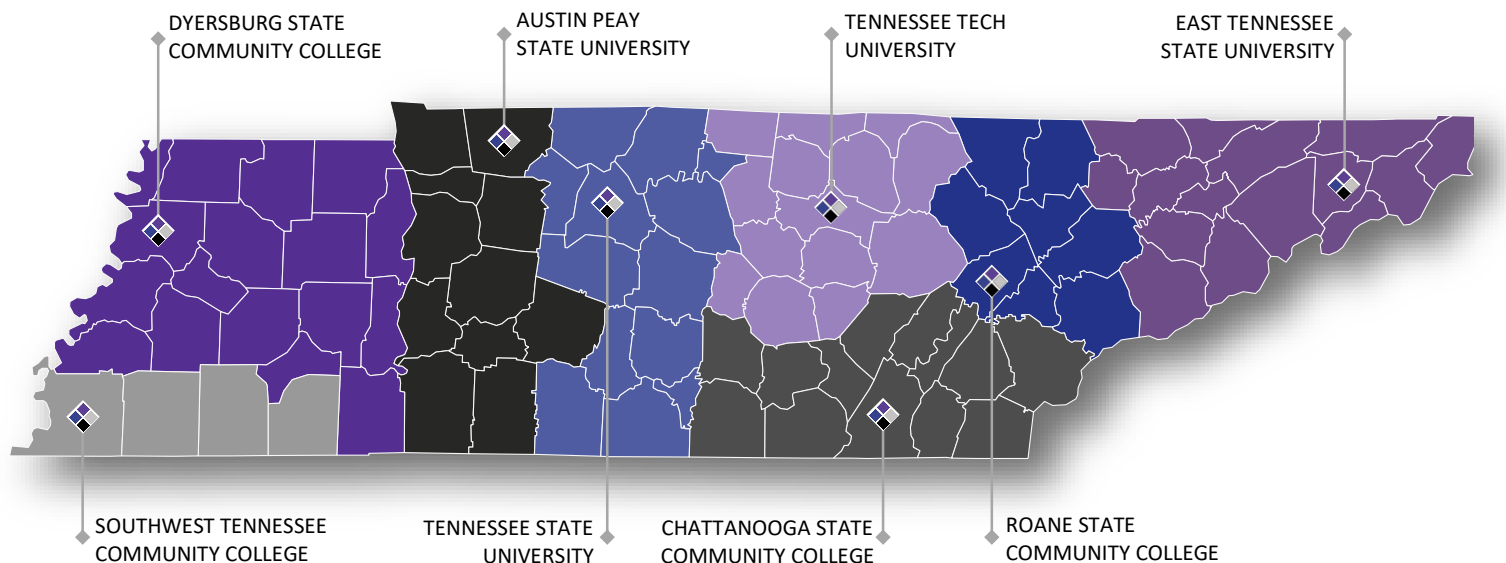

*Courses from an accredited Institution

Promoting Professionalism and High Quality Child Care in Tennessee
