

THE CITL REPORT

JULY 2025

YuJa Panorama Pilot

We're excited to announce that we're beginning the implementation of a new digital accessibility tool in iLearn—[YuJa Panorama](#)! This platform supports the creation of more accessible course content and offers students alternative formats to access materials, helping us meet updated ADA requirements. As part of the initial rollout, we're launching a pilot during the second session of summer courses.

If you're interested, please complete the [registration form](#). Once registered, we'll enable YuJa Panorama in the course(s) you choose—this can be a current second session course or a previous one. You'll also meet with one of our educational technologists to learn the basics and begin exploring the tool. At the end of the session, we'll host a debrief and ask for your feedback through a short form to help guide broader campus implementation. If you have any questions, feel free to [reach out](#)!

Fall 2025 Course Combines

As we are preparing for the summer and fall semesters, we wanted to remind you to request your course combines early! This allows our team to ensure your courses have been combined and provides you with time to ensure the combined course contains all needed information prior to the start of classes. To complete a course combine request, please use the link below. If you have any questions, please contact our office.
