CITL Winter Workshop

January 11, 2027 | 8 a.m.-12 p.m.

Start the spring semester strong! Join CITL for a winter workshop featuring practical strategies, helpful resources, and teaching technologies to help you prepare your courses for the semester ahead. Explore ways to strengthen course organization, encourage student engagement, provide meaningful feedback, and learn from the experiences of fellow faculty. Register on the **CITL website** and email citl@tntech.edu with questions.

Tuesday, November 17
11:00 AM-12:00 PM | Teams

Register for a Workshop

Important Dates

December 10
Deadline to complete D2L exports with CITL Assistance

December 31
TnTech Access to D2L Ends

Canvas Corner

Fall Wrap-Up

Our team is available to assist faculty with end of semester prep and troubleshooting. You can **book a consultation** or **contact us** at citl@tntech.edu.

Spring 2027 Courses

Faculty are responsible for copying migrated content into their Spring 2027 course shells. **Follow these steps** for copying content from one shell to another. Note, the steps work for copying from a fall course, master course, or sandbox.

Remaining D2L Content

If you have additional content you would like to retain from D2L, instructions for exporting courses are available in **Module 5.4.1 of the Faculty Training** course in Canvas. Exported courses can be imported into a Canvas Sandbox or **Master course**, or saved as ZIP files in OneDrive for future use.
