

College of Education

TENNESSEE TECH

Dean's Quarterly Update | December 2021

From our family to yours, we hope your holiday season is cheerful and warm!

We're inspired every day by the awesomeness and enthusiasm of our students who are truly the heart of the College of Education.

Our students are known for their creativity, tenacity, and professionalism. They are always present at Tech events, and are eager to meet new students. They know how to have fun and be successful at the same time. Our college and our students wouldn't be here without you! Your support helps students achieve their educational goals.

Your support also lets students know there are people in the community and beyond who care about them. When you hear students talk about Tech feeling like family, this is what they're referencing . . . genuine kindness, support, and care.

Thank you for helping College of Education students succeed!

All the best,

Lisa Zagumny, Dean / College of Education
