CI06 - Concentration Name Change within Exceptional Learning Ph.D. - Effective Fall 2024

1. Concentration Change

- From Literacy to Critical Discourse and Literacy Studies

Workflow: --> ELC (12.07.23) --> GSEC (01.30.24)

Dr. Jeremy Wendt motioned to approve.

Dr. Matthew Smith seconded.

Discussion: Much of the research of those who choose the Literacy Concentration has been focused already on critical discourses. Including “critical discourse” as part of our concentration name will provide more visibility and help us attract quality scholars interested in critically examining problems and practices in education.

Vote called: All in favor, motion passed.

CI07 - Curriculum & Catalog changes for Higher Education, Ph.D. – Effective Fall 2024

1. EDU 7430

Workflow: --> ELC (12.07.23) --> GSEC (01.30.24)

Dr. Jeremy Wendt motioned to approve.

Dr. Matthew Smith seconded

Discussion: Course changes had substantially overlapped content with one another. EDU 7430 was the better course for the program.

Vote called: All in favor, motion passed.

CI08 - Transfer Credit Request (Graduate Credit) – Effective Fall 2024

1. Permission to grant transfer credit for specific educators that are progressing through content built by the State of TN as an express pathway to licensure for Computer Science Education.

Workflow: --> ELC (12.07.23) --> GSEC (01.30.24)

Discussion: As the only certified university program in the state, TDOE and TSIN have agreed to allow Dr. Gleasman to administer the training modules and for TTU to sign off on the endorsement through our program. There are nearly 1,000 teachers on the TSIN backlog waiting to complete the endorsement program and we believe coordinating to grant credit to several hundred of these teachers will bring a very positive impact to our graduate program enrollment in the immediate future.
