Assistive Technology: Communication

1. Sydspeak: Talk To Me 100:

Sydspeak Inc. introduces Talk To Me 100, a powerful engaging tool for children who are learning to talk, or who have difficulty mastering verbal expression. An interactive teaching device, Talk To Me 100 allows the child- by pressing buttons- to see words, hear words, understand their meaning and experience the joy of communication. Together, you and your child will have fun learning to talk.
