Number of students in supervised clinical experience during this academic year

0

Please provide any additional information about or descriptions of the supervised clinical experiences:

Alternative candidates do have mentors through the school, but the COEd did not require a mentor or clinical supervisor through our office at this time. The policy has been updated and subsequent years will include numbers for COEd mentors and clinical supervisors.

Enrollment and Program Completers

THIS PAGE INCLUDES:

>> [Enrollment and Program Completers](#)

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

No Race/Ethnicity Reported	0	0

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

- >> [Teachers Prepared by Academic Major](#)

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2018-19.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

What are CIP Codes?

No teachers prepared in academic year 2018-19

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2018-19. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. [\(\\$205\(b\)\(1\)\(H\)\)](#)

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Note: Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

Program Assurances

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes
 No
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

1. Strong collaboration with College of Arts & Sciences and College of Education 2. Strong collaboration with LEA Administration, Teachers, and Other School Personnel 3. Office of Teacher Education monitors and facilitates the placement of all field and clinical experiences to provide candidates with diverse experiences 4. All pedagogical courses integrate instructional technology and require performance outcomes of all licensure candidates

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Report Progress on Last Year's Goal (2018-19)

1. Did your program prepare teachers in instruction of limited English proficient students in 2018-19?

If no, leave remaining questions for 2018-19 blank (or [clear responses already entered](#)).

- Yes
 No

2. Describe your goal.

Tech aims to complete at least 2 limited English proficient students job-embedded licensure candidate each year.

3. Did your program meet the goal?

- Yes
 No

4. Description of strategies used to achieve goal, if applicable:

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

Tech has several enrolled in the program and they will complete over the next several years. We maintain close partnerships with our districts to ensure we provide for their licensure needs.

6. Provide any additional comments, exceptions and explanations below:

Review Current Year's Goal (2019-20)

7. Is your program preparing teachers in instruction of limited English proficient students in 2019-20? If no, leave the next question blank.

- Yes

Assessment Pass Rates

THIS PAGE INCLUDES:

>> [Assessment Pass Rates](#)

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. ([§205\(a\)\(1\)\(B\)](#))

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

Provide the following information about the approval or accreditation of your teacher preparation program. ([§205\(a\)\(1\)\(D\)](#), [§205\(a\)\(1\)\(E\)](#))

Low-Performing

1. Is your teacher preparation program currently approved or accredited?

- Yes
- No

If yes, please specify the organization(s) that approved or accredited your program:

- State
- CAEP
- AAQEP
- Other specify:

NASAD,NASAM

2. Is your teacher preparation program currently under a designation as "low-performing" by the state?

- Yes
- No

Use of Technology

On this page, review the questions regarding your program's use of technology. If you submitted an IPRC last year, this section is pre-loaded from your prior year's report; please review and update as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. ([§205\(a\)\(1\)\(F\)](#))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

Yes
 No

- b. use technology effectively to collect data to improve teaching and learning

Yes
 No

- c. use technology effectively to manage data to improve teaching and learning

Yes
 No

- d. use technology effectively to analyze data to improve teaching and learning

Yes
 No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Not all alternate licensure candidates take a technology course; however, they must fulfill the specific instructional technology performance outcomes in each pedagogical course that is required in their program of study and in edTPA.

Teacher Training

THIS PAGE INCLUDES:

>> [Teacher Training](#)

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

All initial licensure candidates complete the SPED 3000 course or the equivalent. All other pedagogical courses integrate performance outcomes that require candidates to plan and assess for a variety of learning differences.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

For the upcoming 2020-2021 academic year a course which details and explores the individualized education program (IEP) has been developed for our candidates in SPED. Candidates are expected to participate in IEP meetings when allowed during both practicum and Residency experiences. In SPED 4872 candidates are placed in their Residency I and II placement and must communicate, collaborate and plan with any/all school personnel involved with their assigned focus learner. They communicate and collaborate on what is to be taught, based on the both reading and math assessment results and IEP requirements. During Residency I and II, candidates are required to mirror the mentor teacher and assume all teaching and planning responsibilities. They attend IEP meetings and collaborate with all school personnel and parents. Whether candidates are placed in a self-contained classroom, a resource room or an inclusion classroom, literacy is a major component of their teaching responsibility as literacy impacts all aspects of education.

c. Effectively teach students who are limited English proficient.

Cultural background influences all candidates understanding of differences across ethnic groups, socioeconomic status, ability levels, and social/educational opportunities. All candidates across licensure programs bring both implicit and explicit bias into each classroom collectively affecting children. The goal is to understand and reduce biases by reframing attitudes and assumptions. In special education, cultural differences include, but are not limited to school ethos of understanding/awareness of difference between cultural and disability may lead to disproportionate labeling of subgroups such as African American, type and range of disabilities that impact learners, and families of those with learning challenges. A section of the TTU Lesson Plan template targets student differences. All candidates enrolled in this course must design instruction with attention given to adaptations to meet individual student needs as well as those who are English Language Learners (ESL). Such adaptations in a lesson take into consideration different student levels and learning styles as well as modifications needed for special population such as learners in special education and ESL learners. In addition to this specific section, the lesson plan requires candidates to address language demands including communication needs, content/academic vocabulary, discourse, and syntax. Communication needs are addressed by the candidates identifying either an expressive or receptive communication skill the learner needs to improve his understanding of the lesson objective. Communication skills may focus on discourse and/or syntax components of language, requiring candidates to vary their plans for integrating skills into instruction. Candidates design their lesson plans to provide opportunities for learners to engage in verbal and written discourse, allowing for differentiation in of learning styles (i.e. auditory and visual). Additionally, during the lesson plan construction candidates identify a variety of supports for instructional delivery as well as various strategies and activities to reinforce the content skills and objectives outlined in the lesson plan. Beyond these considerations, candidates are asked to address student differences in lesson delivery, striving for approaches that encourage acceptance and highlight variances among learners. Specifically, they plan for delivery that may take the form of whole class, collaborative group work, or individualized instruction which potentially allows candidates to address both interpersonal and intrapersonal strengths of learners. In doing so, candidates intentionally plan for learners to offer valuable contributions within the lesson, regardless of their speaking or writing proficiencies.

2. Does your program prepare special education teachers?

- Yes
- No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

The SPED program focuses on knowledge and skills required for educating students with mild to severe disabilities in school systems for grades K-12 in a developmentally appropriate manner. The program focuses on the state standards and the needs of individual students, regardless of their handicapping condition. Candidates will acquire the knowledge and skills needed through field and clinical experiences across age levels and in various settings. Candidates will have opportunities to see how response to intervention is implemented, assess student skills, plan instruction, teach multiple lessons, and reflect on their teaching. A focus on the continuum of services for students with mild to severe disabilities, the instructional cycle, and understanding of direct instructional strategies are a priority throughout the program.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

Historically, Tennessee Tech has produced the highest number of teacher candidates across the state, providing opportunities for candidates to earn licensure in 32 initial programs and 5 advanced programs with a variety of undergraduate, post-baccalaureate, and alternative pathways. These programs, ranging from Agriculture and Physical Education to Visual Arts and Elementary Education, have a strong reputation of serving P-12 districts across the Upper Cumberland and the state. Tennessee Tech candidates participate in a year-long residency model, initiated in 2010, that maximizes the amount of time spent in the culminating clinical experience. The residency experience provides both depth and breadth for candidates to engage positively with the P-12 community, impact diverse groups of students, and build teacher effectiveness. One unique way the EPP supports teacher candidates in the licensure process is through edTPA coaches. Established in 2013, the EPP selects and trains edTPA coaches to assist candidates with the portfolio process, including 1-on-1 guidance, allowable feedback for candidates, and support at candidate seminars. edTPA coaches are content area experts and are assigned appropriately via handbook. Coaches include EPP faculty, university supervisors, and former P-12 administrators/teachers. The EPP retains approximately 25 edTPA coaches each year to maintain a low candidate to coach ratio. In addition to professional preparation received in the program, edTPA coaches are an additional support to bolster success, meet licensure standards, and meet the needs of P-12 students. TTU candidates' edTPA scores surpassed the national mean in 2015–2016 (EPP=47.1; national=44.3), 2016–2017 (EPP=47.0; national=43.8), 2017–2018 (EPP=47.9; national=44.1), and 2018-2019 (EPP=48.0; national=43.8).
