## VITA

John David Cox was born in Gallatin, Tennessee, and spent his first eighteen years there. He spent two years in the United States Army and was honorably discharged in March 1992. He received the degree of Bachelor of Science in Electrical Engineering in May 1993 and the degree of Bachelor of Science in Mechanical Engineering (both from Tennessee Technological University) in December 1994. He entered the Master of Science program in Electrical Engineering at Tennessee Technological University in January 1995. His interests include power electronics, electric machinery, turbomachinery, and neural networks.
