Student Spotlight

TYLER GENTRY

"Tech's program is fantastic, and the master's education is very well laid out. The faculty in the nursing program and the graduate studies office have been fantastic to work with. They make it easy; it's convenient and affordable, honestly. And everything is on your time; it bodes well for working professionals. I tell folks all the time that if they are planning on going back for their master's, to come here."

Student Spotlight

EMILY KUPER

"I had gotten to know the accounting faculty really well during my time as an undergrad. I knew they would support me and help me along my career, and I thought my familiarity with them would serve me well in grad school. So far, that has been true. I would say in the graduate program that I am being prepared very well for my career."
