Degree Works Upgrade - INFORMATION GUIDE

August 2024

The Degree Works degree audit system was upgraded on August 12, 2024 to include new features with a new design. Previously known as the “Classic Dashboard” TTU is now using the “Responsive Dashboard”. This new modern version brings a friendly student dashboard with a fresh and neat look for advisors and students to view academic progress. What will you see? A new modern design, mobile-friendly interface, and ADA compliant for accessibility. In the new responsive dashboard, only the fields with information will be displayed. We’ve highlighted a few of the main tools in the new dashboard.

Notes - The notes feature allows advisors to use predefined or personalized notes to help track conversations with students and document any advisor recommendations. Notes may be viewed by all advisors, which will be helpful if the student decides to change their program of study.

IMPORTANT! Notes are considered part of the student's academic record (even if you check "Not available to student") and can be requested under FERPA. Notes are viewable by the student and any faculty/advisor/staff who have access to the student's audit in Degree Works. Notes should be limited to academic advising recommendations and must not include any personal or sensitive information.
