Institutional Effectiveness 2024-2025

Program: Business Management BSBA

College and Department: College of Business, Decision Sciences and Management

Contact: Curtis Armstrong

Mission:

The College of Business produces career-ready, professionally adept, and community-engaged graduates, generates application-oriented research, and provides exceptional service to business and society.

Our mission is accomplished by:

Emphasizing integrative, personalized, and engaging experiential learning opportunities – both within and outside the classroom.

Producing research that makes meaningful contributions to the practice of business and business education.

Expertly serving University, community, and business constituents to improve and promote the social well-being and economic success of the Upper Cumberland and Tennessee.

Maintaining ethical, equitable, and inclusive learning environments and student interactions

We believe teaching, research, and service are interdependent and synergistic, and that the spirit of discovery and pursuit of knowledge underlie our educational focus and guide our service activities.

The College of Business developed a new mission statement in 2020-21. It is aligned with the University's mission.

Undergraduate program includes Departments of 1) Decision Sciences and Management; 2) Economics, Finance, and Marketing

Attach Curriculum Map (Educational Programs Only):

Attached Files: See Appendix 1

PO1: Expand Academic Program Initiatives

Define Outcome:

Expand academic program initiatives at both the undergraduate and graduate levels.

Assessment Methods:

Program Initiatives: Academic Program initiatives to support the mission of the College are proposed by Departments. They also result from the strategic plan of the College. These proposals are presented and discussed by the College level committees and in college faculty meetings.

Assessed by number and types of program initiatives.

Criteria for Success (Thresholds for Assessment Methods):

Program initiatives are efficiently discussed and voted on by the College level committees.

Link to 'Tech Tomorrow' Strategic Plan:

1.A Experiential Learning, 2.A Technology Infused Programs

Results and Analysis:

The International Business and Cultures (IBAC) major was identified as a low enrollment major.

Use of Results to Improve Outcomes:

It has been recommended that the IBAC be sunset. The focus will be moved to promoting the existing International Management minor for students interested in the field. This change is supported by as significant shift in enrollment from the IBAC major to the International Management minor.

PO2: Increase Enrollments and Financial Support

Define Outcome:

Increase enrollments and provide financial support for enrolled students.

Assessment Methods:

Enrollment Data: Enrollment data is reviewed every Fall semester and discussed in the College faculty meetings. Actions to promote enrollment and increase financial support for enrolled students are developed, presented, and discussed in the College level committees, in the Departments, and in college faculty meetings.

Assessed by activities to promote enrollment, financial support for enrolled students, and enrollment data.

Criteria for Success (Thresholds for Assessment Methods):

The enrollment data is reviewed every Fall semester and discussed in the College faculty meetings with recommendations on promoting enrollment and increasing financial support.

Link to 'Tech Tomorrow' Strategic Plan:

1.C Diversity, 2.C Adult Learners

Results and Analysis:

- COB's undergraduate FTE enrollment in Fall 2024 increased by 8 percent compared to enrollment in Fall 2023, from 1110 to 1199.
- The number of new freshmen increased by 2 percent, from 213 Fall 2023 to 217 in Fall 2024 and the number of transfer students increased by 17 percent, from 63 to 74 in the same time period.
- Diversity indicators, i.e., percentages of female students and students of color, of the total undergraduate enrollment, have remained fairly steady in the last three years.
- COB organized several on-campus recruitment and promotion events such as back-toschool bash, block party publicizing academic and professional opportunities to nonbusiness students on campus.
- COB regularly participates in SOAR, Community Day, Family Weekend, Preview Day, and Community College visits. In Summer 2024 there were ten SOAR events and three sessions for transfer students that were hosted by the Student Success Center.
- Since Spring 2023, COB has hosted two Business Showcases in Johnson Hall to showcase the opportunities in business for the prospective students (and their parents) who have been admitted to TTU but not enrolled and College of Business Connect in Foundation

Hall Auditorium with the purpose of engaging current freshmen and providing information and clarity on all things COB.

Use of Results to Improve Outcomes:

- COB participated in or hosted several recruitment events.
- Twin Lakes continues to provide \$15K for COB students to complete professional certification in IT.
- COB students participate in several leadership events hosed *by the* Professional Readiness and Leadership Center.

PO3: Provide Faculty Support

Define Outcome:

Provide strong faculty units and resources for faculty support to meet the academic mission of the college.

Assessment Methods:

Assessed by Faculty Resources and Resources for Faculty Support; Faculty qualifications assessed by the AACSB standards. AACSB (Association for Advancement of Collegiate Schools of Business International) is the accrediting body for the College of Business (COB).

Faculty hiring needs are discussed in Departmental and College level meetings. A recruitment committee, which typically includes all faculty from the area and an outside representative is formed when hiring is approved at the university level. The recruitment process for new faculty follows the policies and procedures of the University and is monitored in the Office of Diversity and Legal Affairs. The committee develops a job description and an advertising plan, which includes as a minimum the Chronicle of Higher Education, appropriate discipline publications, and direct contacts with historically black institutions that grant the appropriate degree. At least one member of the search committee attends appropriate national discipline meetings to have short interviews with as many candidates as possible. In 2021-22 initial screening of the candidates was done through virtual interviews. After a full review of credentials, the search committee typically selects three candidates to invite for campus interviews. The interviews include meetings with the faculty, a presentation to the faculty, and meetings with the department chair, the dean of the college, and the Provost. The committee ranks the candidates and the Dean and the Provost negotiate the terms of employment. All materials are evaluated electronically.

The College has developed definitions of qualified faculty in accordance with the most recent (2020) AACSB standards. Faculty qualifications are updated in the annual professional accomplishments form completed by faculty and reviewed by Department Chairs. Actions to increase resources for faculty support are developed, presented, and discussed in Departmental and College level meetings.

Criteria for Success (Thresholds for Assessment Methods):

All courses offered by the College of Business are taught by faculty members who are qualified as defined by the current AACSB standard for faculty qualifications.

Link to 'Tech Tomorrow' Strategic Plan:

2.B Research, Scholar, Intellect, and Creativity, 2.D Diverse Faculty and Staff, 4.B Programs, Certificates, and Training

Results and Analysis:

- A lecturer started in Fall 2024 in the area of Business Communications
- An instructor to start in Fall 2024 was hired in the area of Business and IT.
- A tenure-track faculty member in the rank of an assistant professor to start in Fall 2024, was hired in the area of Finance.
- Faculty resources were augmented by hiring to replace faculty who have left or retired, in areas where there is a need to support the core academic mission and degree programs offered by the college.
- Resources were provided to support faculty consistent with the needs expressed in the faculty development plan submitted annually by each faculty member.

Use of Results to Improve Outcomes:

- The College will be hiring to fill the position of the J.E. Owen Chair of Excellence.
- The College will be hiring new faculty members to fill positions due to program needs and a vacancy in the area of Business and IT.
- COB faculty at all levels and career stages are not only supported but encouraged to attend conferences and pursue degrees, professional certificates, and licensures related to their teaching disciplines.

SLO1: Demonstrate Competency in the Core Business Areas

Define Outcome:

Business students will demonstrate competency in the core business areas.

Assessment Methods:

ETS Exit Exam (Major Field Test in Business): The ETS Exit Exam is taken by graduating seniors in

the Fall and Spring semesters.

Content area scores in the ETS Exit Exam.

Criteria for Success (Thresholds for Assessment Methods):

The benchmark for the overall score is the ETS national median of all institutional scores. The threshold is the ETS national 25th percentile of all overall institutional scores. Action is taken if

the threshold is consistently not being met.

The benchmarks for the content area scores are the national mean percentages of correct answers of ETS. The threshold is the ETS national 25th percentile of all institutional scores in the

content areas. Action is taken if the threshold is consistently not being met.

Link to 'Tech Tomorrow' Strategic Plan:

4.B Programs, Certificates, and Training

Results and Analysis:

See attached document for ETS Scores Overall and Content Areas - Fall 2019 - Spring 2025. COB median for overall score exceeded the national ETS benchmark in Fall 2024 and Spring 2025.

All the content area scores also exceeded the national ETS benchmark in Fall 2024 and

Spring 2025.

Attached Files: See Appendix 2

Use of Results to Improve Outcomes:

Based on these results, no intervention will be taken at this time. These scores will be

monitored in future semesters.

SLO2: Demonstrate Awareness of Ethical Implications

Define Outcome:

Business students will demonstrate awareness of ethical implications of business decisions.

Assessment Methods:

Ethics Scenario: An ethics scenario (with questions corresponding to the three dimensions of ethical awareness) was administered to graduating seniors. Faculty assessed student answers to questions regarding the scenario using the ethics rubric. The questions were aligned with the dimensions of the ethics rubric, Q1- recognizing the ethical dilemma or issue; Q2 - identifying the affected stakeholders, and Q3 - recommending solutions/actions.

Criteria for Success (Thresholds for Assessment Methods):

The benchmark is that at least 75% of students will get scores of 4 or above on a 1-5 scale on each of the rubric dimensions. A score of 3 is considered satisfactory performance. The threshold is that at least 50% of students will get scores of 3 or above on each of the rubric dimensions.

Link to 'Tech Tomorrow' Strategic Plan:

4.B Programs, Certificates, and Training

Results and Analysis:

Ethics was specifically included in two courses - BMGT 3510 - Business Management and LAW 2810 - Business Law. This content included ethical discussion and case analysis. Students scored above the threshold in all four areas of ethical assessment: identify the ethical dilemma, identify the stakeholders, propose possible solutions, and recommend a solution.

	Question 1	Question 2	Question 3	Questions 4
Total	79	79	79	80
>=4	69	78	63	72
%	87.34%	98.73%	79.75%	90.00%
Student scor	ed above the	reshold in a	ll areas	

Question 1 - Identify the ethical dilemma Question 2 - Identify the stakeholders Question 3 - Identify possible solutions Question 4 - Recommend a solution

Use of Results to Improve Outcomes:

We will continue with both the ethical treatment and assessment to monitor student process.

SLO3: Demonstrate Ability for Problem Solving and Decision Making

Define Outcome:

Business students will demonstrate ability for problem solving and decision making.

Assessment Methods:

California Critical Thinking Skills Test: Senior Exit Exam California Critical Thinking Skills Test

(CCTST) taken online in Fall and Spring semesters by graduating seniors.

The overall scores and the scores on each of the following dimension/scales of CCTST: Analysis: Inference: Evaluation; Induction; and Deduction were considered. Note that the online version assessed additional critical reasoning skills: Interpretation, Explanation, and Numeracy.

Criteria for Success (Thresholds for Assessment Methods):

The prevailing 75% benchmark (for other learning objectives) is used. That is at least 75% of students will exhibit moderate/strong/superior reasoning skills. The threshold is that at least 50% of students will exhibit moderate/strong/superior reasoning skills. Action is taken if the threshold is consistently not being met.

Link to 'Tech Tomorrow' Strategic Plan: 4.B Programs, Certificates, and Training

Results and Analysis:

See the attached document 2025 Spring CCTST COB Results with Chart.

 The scores in Inference, Induction, and Interpretation dimensions met or exceeded the benchmark in Spring 2025.

• The overall performance scores did not meet the benchmark in Spring 2025 but they exceeded the threshold.

In Spring 2025, overall performance on all dimensions exceeded the threshold.

Attached Files: See Appendix 3

Use of Results to Improve Outcomes:

The scores for Numeracy have improved since 2024 with the implementation of the Quantitative Reasoning Initiate. This initiate will continue to be implemented in the core business classes.

SLO4: Demonstrate Communication Skills

Define Outcome:

Business students will demonstrate proficiency in communication skills.

- a. Business students will demonstrate proficiency in written communication skills.
- b. Business students will demonstrate proficiency in oral communication skills.

Assessment Methods:

Written and Oral Communication: Rubric-based assessment of writing samples from BMGT 4930 (capstone core class) from the Spring 2022 semester; Rubric-based assessment of a randomized sample of oral presentations from the core business class BMGT 3720 (Business Communications) in Fall 2021.

Criteria for Success (Thresholds for Assessment Methods):

The benchmark is that at least 75% of students will get scores of 4 (good) or above on a scale of 1-5 on each dimension of the above rubrics. The threshold is that at least 50% of students will get scores of 4 or above on each dimension of the above rubrics.

Link to 'Tech Tomorrow' Strategic Plan:

4.B Programs, Certificates, and Training

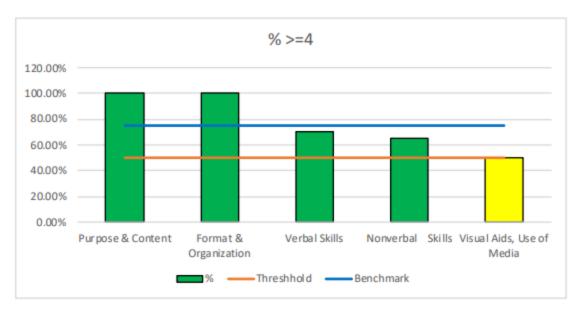

Results and Analysis:

For written communications, the benchmark of at least 75% of students scoring at or above 4 (good) was met for all five dimensions of the rubric.

For oral communications, the benchmark of at least 75% of students scoring at or above 4 (good) was met for all five dimensions of the rubric.

	Spr	ing 2024 W	riting Assessment	Results		
Count	30					
Scores	Purpose	Tone	Organization	Grammar	Format	Rating
Excellent	26	18	8	17	27	5
Good	3	12	17	12	2	4
Satisfactory	1	0	5	1	1	3

Unacceptable	0	0	0	0	0	1
Percent 4 or 5	96.67%	100.00%	83.33%	96.67%	96.67%	

	Purpose & Content	Format & Organization	Verbal Skills	Nonverbal Skills	Visual Aids, Use of Media
#Students	20	20	20	20	20
>=4	20	20	14	13	10
%	100.00%	100.00%	70.00%	65.00%	50.00%
Threshhold	50%	50%	50%	50%	50%
Benchmark	75%	75%	75%	75%	75%

Use of Results to Improve Outcomes:

We will continue implementing our Writing Across the Curriculum initiate with at least one writing assignment included in all core business courses.

SLO5: Demonstrate Skills to Work in Teams

Define Outcome:

Business students will demonstrate skills necessary to work in teams in diverse group settings.

Assessment Methods:

TeamMate: Individual-level teamwork skills and team-level skill dimensions were assessed using TeamMate software (an online peer-assessment tool from CAPSIM) in Capstone Business Strategy (BMGT 4930) class. This tool measures an individual student's team skills along four dimensions: Preparation, Execution, Monitor, and Adjustment (4Ps). The tool also provides measures of team performance on the dimensions of Cohesion, Confidence, Conflict, Cooperation, and Coordination (5Cs).

Criteria for Success (Thresholds for Assessment Methods):

At least 75% of student teams will maintain or show improvements on the four dimensions of individual-level team skill effectiveness. The threshold is that at least 50% of student teams will maintain or show improvements on the four dimensions of individual-level team skill effectiveness.

At least 75% of student teams will maintain or show improvements on the five dimensions of team performance. The threshold is that at least 50% of student teams will maintain or show improvements on the five dimensions of team performance.

Link to 'Tech Tomorrow' Strategic Plan:

4.B Programs, Certificates, and Training

Results and Analysis:

See the attached document for the results of the 4Ps and 5Cs from *TeamMate* for Spring 2025 in BMGT 4930 (Capstone) sections.

- The benchmark is "at least 75% of teams will either show improvement (>5%) or maintain (+/-5%) their performance from Round 1 to Round 2 feedback on the individual-level team skills (4Ps) and team-level team skills (5Cs)." The satisfactory threshold is 50% of the teams.
- In Spring 2025, the 4 P's benchmark was met for Execution and Monitoring, and Preparation, but not for Adjustment.
- In Spring 2025, the 5 C's benchmark was met for cohesion, confidence, cooperation, and coordination. The benchmark was not met for conflict.

Attached Files: See Appendices 4 and 5

Use of Results to Improve Outcomes:

These results will be presented to the professions teaching BMGT 4930. At this time, the results do not call intervention, but the future scores in these areas will be closely monitored.

SLO6: Possess Competencies in the Major Discipline

Define Outcome:

College of Business Majors will possess competencies (skills and knowledge) in their major discipline.

- Business and Information Technology (BIT) Majors will demonstrate competency on the ETS Major Field Test Assessment Indicator for Information Systems.
- Business Management (BMGT) Majors will demonstrate competency on the ETS Major
 Field Test Assessment Indicator for Management.
- Economics (ECON) Majors will demonstrate competency on the ETS Major Field Test Assessment Indicator for Economics.
- Finance (FIN) Majors will demonstrate competency on the ETS Major Field Test Assessment Indicator for Finance.
- International Business and Cultures (IBAC) Majors will demonstrate competency on the ETS Major Field Test Assessment Indicator for International Issues.
- Marketing (MKT) Majors will demonstrate competency on the ETS Major Field Test Assessment Indicator for Marketing.

A curriculum map (see Appendix 1) shows the linkages between the courses in the BSBA program and student learning outcomes.

Assessment Methods:

The assessment indicator of the relevant content area of the ETS Exit Exam (Major Field Test in Business). The ETS Exit Exam is taken by graduating seniors in the Fall and Spring Semesters. In the ETS exam, there are questions pertaining to the content area of each major discipline. The performance of the cohort of students in the particular major is assessed by the average percentage of correct answers in the respective content area, e.g., the performance of marketing majors in the marketing content area of the Exam.

Criteria for Success (Thresholds for Assessment Methods):

The benchmark is the national mean percentage of correct answers in the content area. The threshold is the national 25th percentile of the percentage of correct answers in the content area. Action is taken if the threshold is consistently not being met.

Link to 'Tech Tomorrow' Strategic Plan:

4.B Programs, Certificates, and Training

Results and Analysis:

See attached document for BSBA SLO6 Results

- In Spring 2025, the scores in the content area of each major for which results are available exceeded their respective benchmarks.
- The results of the ETS exam for Fall 2024 did not capture student majors, so the data for that semester are not available.

Attached Files: See Appendix 6

Use of Results to Improve Outcomes:

We will continue monitoring the Major specific ETS data to verify that the benchmarks are maintained.

Results were not available for ECON and IBAC majors for several past semesters because there were fewer than five ECON and IBAC majors taking the Business ETS exit exam.

Summative Evaluation:

PO1: It has been recommended that the IBAC be sunset. The focus will be moved to promoting the existing International Management minor for students interested in the field. This change is supported by a significant shift in enrollment from the IBAC major to the International Management minor.

PO2: New professional development and career opportunities are being created for COB students:

- COB participated in or hosted several recruitment events.
- Twin Lakes continues to provide \$15K for COB students to complete professional certification in IT.
- COB students participate in several leadership events hosted by the Professional Readiness and Leadership Center.

PO3: The College will be hiring to fill the position of the J.E. Owen Chair of Excellence. The College will be hiring new faculty members to fill positions due to program needs and a vacancy in Business and IT. COB faculty at all levels and career stages are not only supported but encouraged to attend conferences and pursue degrees, professional certificates, and licensures related to their teaching disciplines.

SLO3: The recommendations of the college task force on Quantitative Reasoning will continue to be implemented in the core business classes to meet the threshold for Numeracy.

SLO4: We will continue implementing our Writing Across the Curriculum initiative with at least one writing assignment included in all core business courses.

Assessment Plan Changes:

SLO6: Results were not available for ECON and IBAC majors for several past semesters because there were fewer than five ECON and IBAC majors taking the Business ETS exit exam. To address this issue, performance in capstone courses for ECON and IBAC majors is being considered as a proxy. Additionally, the scores in the Economics major field test will replace the scores of Economics majors in the Business ETS exit exam.
