Correcting Scores for Revised Quizzes

Quiz questions can be modified as needed. If students have already taken a Quiz after it has been revised, and that revision would affect how they scored, those attempts will need to be regraded.

Revise a Quiz Question

1. In your course, click **Quizzes** in the purple navigation bar.
2. Click the **name** of the quiz to be edited.
3. Under Questions, select the **question** to edit.
4. Make necessary changes to the question.
5. Click **Save**.
6. Click **Save and Close**.

Regrade a Quiz Question

After the quiz question has been revised, the attempts for the quiz can be regraded. (These instructions apply only to True/False and Multiple-Choice questions. Other question types must be regraded manually.)

1. In your course, click **Quizzes** in the purple navigation bar.
2. Click the dropdown arrow next to the quiz.
3. Select **Grade**.
4. Select the **Questions** tab.

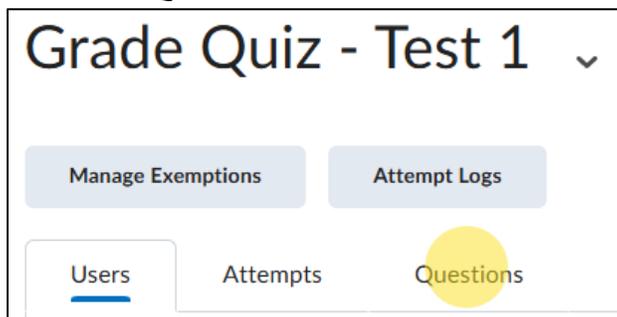

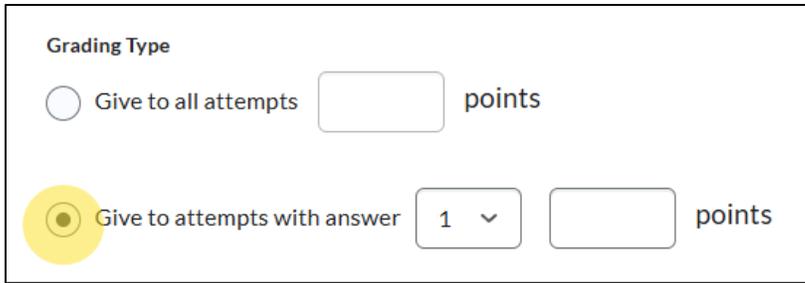

Figure: Questions tab

5. Select the **Update All Attempts** radio button.
6. Scroll down to the heading "Questions that are not in the quiz anymore."
7. Locate and select the question that was modified.
8. A new page will open. Under the "Grading Type" list, select the radio button for the "Give to attempts with answer" option.

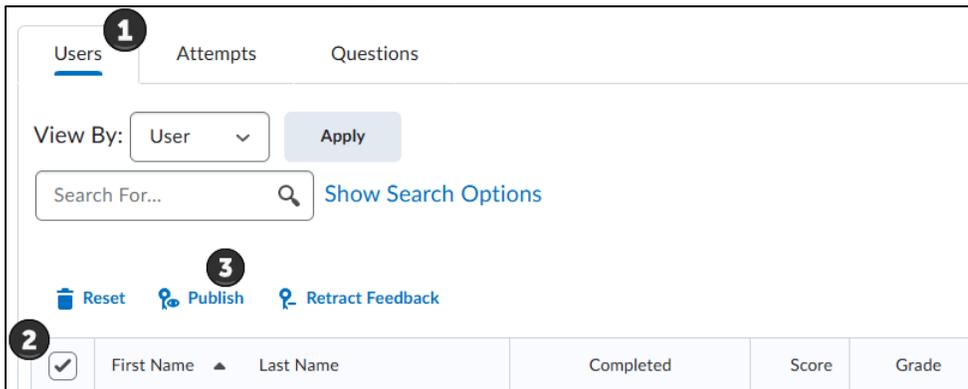

Correcting Scores for Revised Quizzes

The image shows a 'Grading Type' section with two radio button options. The first option is 'Give to all attempts' with an empty text box for points. The second option is 'Give to attempts with answer' with a dropdown menu set to '1' and an empty text box for points. The second option is selected, indicated by a yellow highlight around the radio button.

Figure: Radio Button for giving an attempt answer points

9. From the dropdown menu, select the number corresponding to the answer option that was incorrectly marked as correct.
10. Enter 0 in the “points” text box.
11. Click **Save**.
12. A confirmation popup will open. Select **Yes**.
13. Repeat the selection of the radio button for the “Give to attempts with answer” option.
14. From the dropdown menu, select the number corresponding to the answer option that is now correct.
15. Enter the point value for that question in the “points” text box.
16. Click **Save**.
17. The confirmation will open again. Click **Yes**.
18. Click **Go Back to Questions**.
19. Select the **Users** tab [1].
20. Select the **checkbox** [2] to select all users.
21. Select **Publish Feedback** [3].

The image shows the 'Users' tab in a quiz management interface. It features a 'View By' dropdown set to 'User' and an 'Apply' button. Below this is a search bar with a magnifying glass icon and a 'Show Search Options' link. At the bottom, there are three buttons: 'Reset', 'Publish' (with a circular icon), and 'Retract Feedback' (with a circular icon). A table below these buttons has a checked checkbox in the first column and columns for 'First Name', 'Last Name', 'Completed', 'Score', and 'Grade'. Numbered callouts 1, 2, and 3 point to the 'Users' tab, the checkbox, and the 'Publish' button respectively.
