PRO TIPS

preparing students for
registration season

Registration Pins: Pins display in Argos as well as Tech Connect. Update your reports often as new students get admitted, and new registration pins are generated.

Registration Holds: Encourage your students to monitor their accounts and be vigilant for any holds that might prevent registration next month. Our office will also contact students with registration holds in the coming weeks to try to prepare them to be able to register early.

1. Denise is happily married and has 5 children, 5 grandchildren and 8 great-grandchildren.
2. She starred in a movie made for TV with her infant son.
3. She is a certified Zumba instructor and certified Enneagram Coach.
4. She dresses in costume and attends the Tennessee Renaissance Festival a couple weekends in May.
5. Bucket list: Learn to play the Appalachian dulcimer and the Irish fiddle. Build a rescue for abused dogs and a sanctuary for senior dogs with my children.
