

A Message From Our President:

## Katelin Viens

Hey!! I'm Katelin, a Biology major with a concentration in Health Sciences.

I love being involved on campus! I am the vice president of Chem Med Club, Fundraising Chair for the RAM clinic, and researcher of sustainable polymer chemistry!

I am honored to serve as the President of the College of Arts and Sciences Ambassadors for the 2024-2025 school year! I have been an ambassador since the second semester of my freshman year.

What does being an Ambassador mean to me?

Being an ambassador means connecting with the people in our college on a deeper level. It means helping the incoming generation in this next stage of life.

My message to prospective students, freshmen, prospective ambassadors, and to my fellow ambassadors: Say "yes" to college! Say "yes" to new friends, new classes, new jobs, and new opportunities!
